

New Business iPay

Business iPay includes everything our consumer iPay has to offer plus the following:

- Electronic Payroll System
- Direct Link to EFTPS to make Federal Tax Payments
- Report System
- Higher spending limits than the consumer iPay

Electronic Payroll System offers:

- The flexibility to handle payroll for hourly or salaried employees and contractors, and do it all electronically
- Convenience of direct deposit, so you can send each payment directly into your employees' accounts
- Keep employees up to date with an automatic direct deposit notification by email
- Get the flexibility to split an employee's net pay and deposit into two accounts
- Control every aspect of your payroll deposit, including setting up your employees, setting the compensation parameters and making deposits into their bank accounts
- Access all of the payroll deposit details in one convenient location, including the payroll amount for each employee, the total of each payroll, the process date and payroll history

Report System includes the following reports:

- Payments Processed
- Payments Changes
- Payments stopped
- Payees Added
- Transferred Processed
- Outstanding Check Report

This great new service is just \$5.95 a month for up to the first 10 transactions. \$.50 for each additional transaction. The first 3 months are free unless you are converting from the consumer iPay.
